***iMow***®

**TeaM**

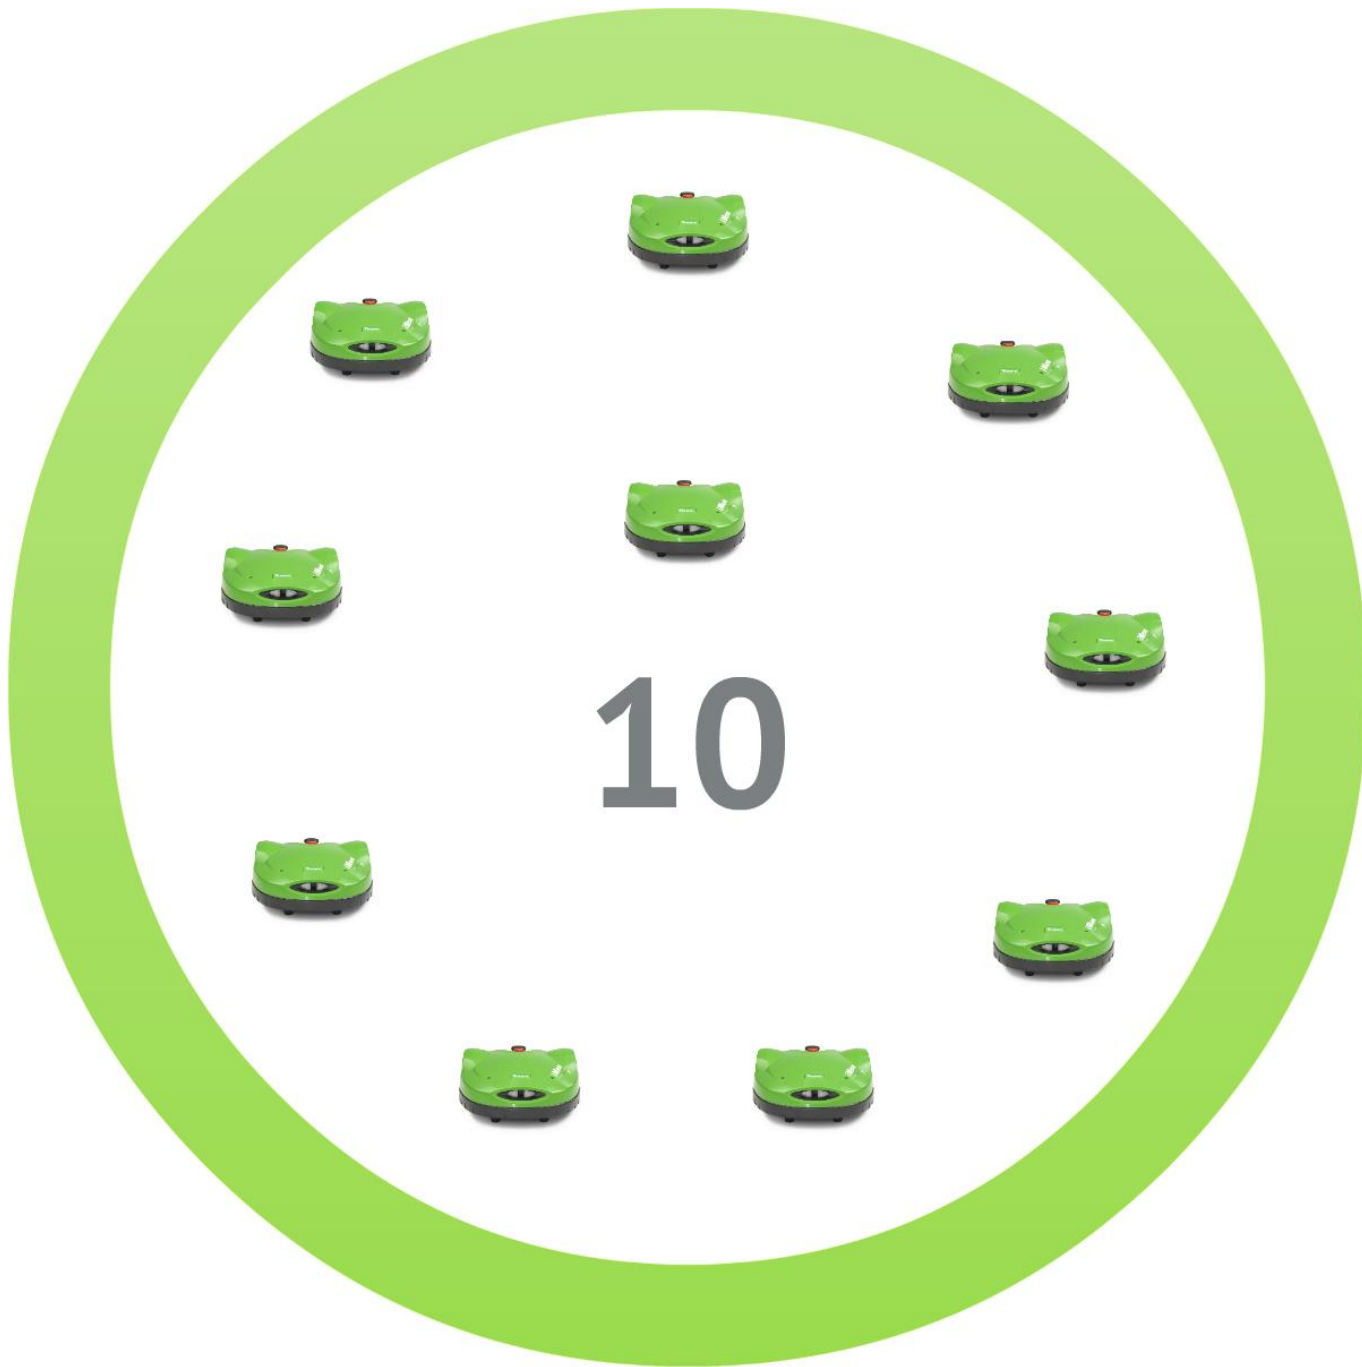

# what for??

## for large surfaces

sports fields      parks      company premises  
solar parks      golf courses      ...

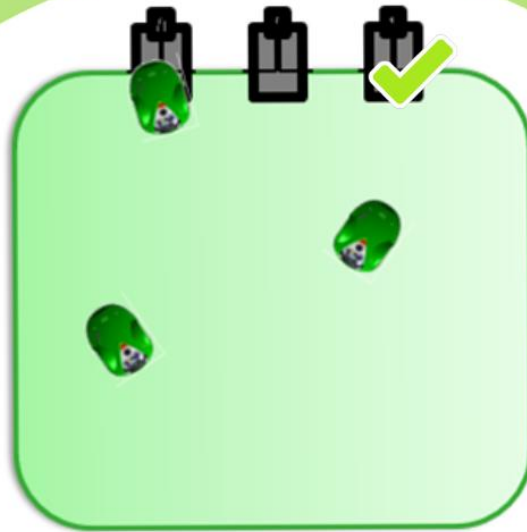

## new target groups ??

administrations etc.      sport clubs      companies  
...

10

number of iMows = number of DS  
1 x Master docking station = signal  
anybody with everybody ;-)

# iMow Team

Cloud beslist welke iMow wat doet  
= intelligent teamwork

signal

wizard

starting points

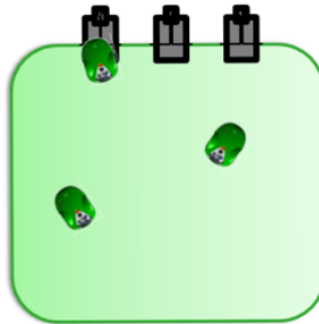

mowing schedule

rain sensor

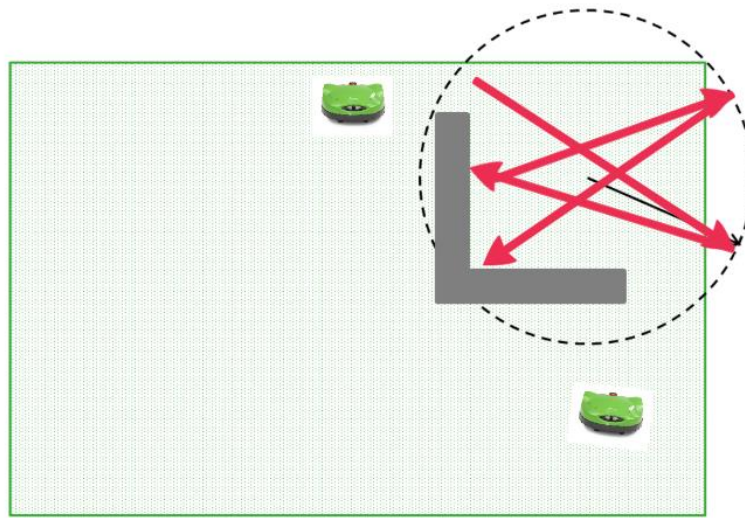

Automatic mode on/off

intensive zone

general settings (language, time, etc.)

intensive zone

# Limitations??

Number of machines/TeaM: max. 10 pcs.  
Distance iMow to wire: max. 75m  
available active times / week

How many??

$$\text{Number of iMows per Team} = \frac{\text{mowing area}}{\text{sum active times}} \times 0,024$$

# Footballfield

12.000 m<sup>2</sup>

FC Kufstein

Traininghours/Matches:

Mo-Fr: 15:00 - 21:00

Sa - So: 12:00 - 21:00

Activetimes: 120 h

3

FC Kufstein

Traininghours/Matches:

Mo-Fr: 10:00 - 22:00

Sa - So: 10:00 - 22:00

Activetimes: 84 h

4

# MI 632 M

Machine based on MI 632.0 PC

- Adjusted front-pcb for signal detection on surfaces with larger wire distances
- Software changes
- Script C-Module
- NSR, Remote SW
- Seperate e-module for MI 632M

New docking station

- new docking pcb (mid 2017) includes all functions for the iMow TeaM
- Differentiation master docking station and docking stations over TeaM-stick (incl.)
- No device-specific docking station assignment (every iMow can use every docking station)

Capacitive rain sensor

# App

also for C-users

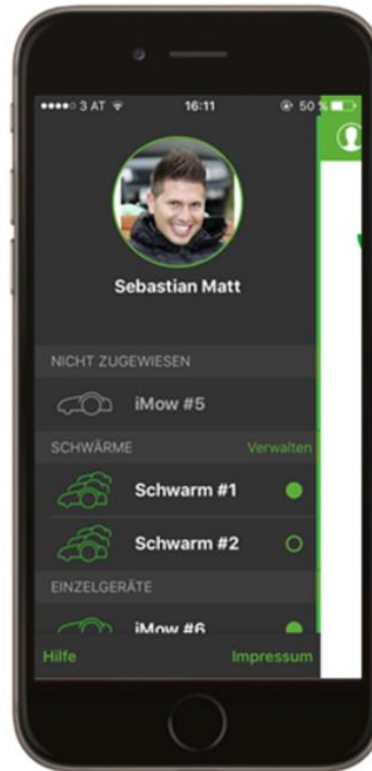

**Nieuwe intuïtieve app met push**

Push notifications

## native

intuitive in every system

Android  
iOS  
Web

**Data contract = INCLUDED**

Datacontract moet niet verlengd worden. In de communicatie mogen we wel NIET over life-time spreken. Dat kan tot verwarring leiden.

Manage your iMow and/or iMow TeaM

Monitor the iMow TeaM ... or single machines

Name your machine

Adapt the mowing schedule

Change settings

Viking = 1<sup>ste</sup> met dit concept
